PROJECTS

Nxt Trendz App – E-Commerce Web Application

A modern e-commerce web application inspired by popular online shopping platforms. It enables users to browse products, view product details, and securely log in before accessing protected pages. Designed with a focus on authentication, responsive UI, and smooth navigation.

- Build Tools

  React.js, JavaScript (ES6+), React Router, RESTful APIs, CSS3, Bootstrap, and JWT Authentication

Jobby App – Job Search Web Application

An interactive job search platform that helps users explore job opportunities based on employment type and salary range. Includes authentication, protected routes, and real-time job listings fetched from APIs. Designed for a smooth and user-friendly experience with responsive design.

- Build Tools

  React.js, JavaScript (ES6+), React Router, RESTful APIs, CSS3, Bootstrap, JWT Authentication

Cookbook App – Recipe Explorer

A responsive web app to browse and search recipes with images. Fetches data from MealsDB API and allows users to explore dishes easily.

- Build Tools

  React.js, JavaScript, REST APIs, CSS3, Tailwind CSS
